PORTFOLIO: OUNISSI.ME

## OBJECTIVE

Highly skilled and motivated  
Programmer with 5 years of experience.  
Committed to delivering efficient and  
innovative solutions to enhance Human  
machine interactions.

## SKILLS

Coding and designing desktop  
experiences, communication, analyzing  
patterns and finding solutions in record  
times.

## EXPERIENCE

### SCRIPTING PROGRAMMER / BULKHEAD INTERACTIVE

2018 as a online contractor

Collaborated with the development team to design, develop, and maintain  
scripting systems for the game: The Turing Test .

Implemented scripted gameplay events, quests, and dialogue systems, enhancing  
player immersion and engagement.

Optimized and debugged existing scripts, resolving issues to ensure smooth and  
seamless gameplay experiences.

Utilized scripting languages (e.g., Lua, Python) and integrated them with the  
game engine to create interactive and dynamic gameplay features.

### RADIOLOGY TECHNOLOGIST/ MERIÈM BOU ATTOURA HOSPITAL BATNA

2020 to today

Performed diagnostic imaging procedures ensuring accurate and high-quality  
images for patient diagnosis.

Operated and maintained radiology equipment, following strict safety protocols  
and maintaining a sterile environment.

Collaborated with radiologists and healthcare professionals to assess patient  
needs and provide appropriate imaging services.

Maintained accurate patient records, including imaging results, patient history,  
and relevant information.
